19 INCH

## Overview

---

Könner & Söhnen® Portable Solar Panels offer battery charging or electronic device power from solar energy. Installing solar panels in Estonia has become even more affordable thanks to government support programs. Altmer Energy helps private and corporate clients receive compensation for up to 70% of the cost of equipment and installation. We take care of all the paperwork, submit applications, and identify and compare relevant B2B manufacturers, suppliers and retailers. They enable clean, renewable energy production on-site, helping reduce electricity costs. Today, Elpec Energy OÜ has designed and built more than 3 MW solar parks; in addition, we have built connection points for solar parks through tripartite agreements with Elektrilevi and the customer. Solar panels are commonly used.
