

How do photovoltaic panel agents make money

Overview

Photovoltaic solar agents typically earn through commission-based structures, receiving a percentage of each sale they facilitate. What Is Solar Sales Commission?

Solar sales commission is the amount a sales representative earns. It may seem like the solar companies that sell and install solar panels for you aren't gaining any profit but that is not the case. Solar companies usually follow a long-term plan since they are well aware that there isn't much profit with the initial purchase and installation of the panels. Of that, the average solar panel salesman makes \$1,600, or 10% of the total cost. However, that's not the whole story.
