How to install the slide rails for pulling photovoltaic panels

Overview

In this video, we'll show you how to install the railing for your solar panel system to ensure a professional and secure installation. Start by measuring your panels to plan out how long each rail needs to be on each row, including a half inch for each gap. Installing solar panels yourself can seem a little daunting if you've never done it before or even if you have. Then I thought slide out to the side and drop down at the end. Have panel #1 flat mounted on the roof with a raised stand. The solar panel mounting rails is aluminum,but our company research Polyamide 66 Fiberglass45% replace aluminum profile.
