

National subsidies for solar power generation in rural areas

Overview

The Rural Energy for America Program (REAP) offers federal grants and loans to help farmers and rural small business owners go solar, covering up to 50% of total project costs. Listening to stakeholders and applying insights to new programs and future research efforts. REAP isn't currently accepting grant applications. Funding Freeze: Some REAP awards were put on. While urban centers have dominated early clean energy adoption, rural communities across the U.

National subsidies for solar power generation in rural areas
