

Solar glass greenhouse budget

Overview

Hoop houses are the most affordable at \$5-\$10 per sq. due to complex framing and glazing requirements. Purchasers typically pay for a glass greenhouse based on size, glass type, frame material, and installation needs. For budget-conscious growers, a simple DIY hoop house can cost as little as \$2,000, while high-end custom structures with automated climate control can exceed. Costs for glass can vary from \$10 to \$30 per square foot, depending on the thickness and quality. Beyond the surface, attention must be directed towards the structural framework. Small hobby units start at \$500-\$3,000, commercial structures range from \$30-\$120/m², and high-tech glass systems can exceed \$200/m².
