

What is the best way to wipe dust off photovoltaic panels

Overview

Before cleaning solar panels, turn off power to them. Dislodge any loose debris or dust with a soft brush. Spray down the panels with a hose and scrub any stuck-on dirt areas gently with a soft brush and water or a special cleaning solution for heavily soiled areas. Rain often removes light debris, but dust, pollen, bird droppings, or snow buildup can reduce output over time. We may earn revenue from the products available on this page and participate in affiliate programs. Weather: Rain can wash away some dirt, but in dry climates, dust can. While the situations mentioned above may affect how dirty your solar panels get, the best way to 'clean' your solar panels is by simply letting nature do its thing.

What is the best way to wipe dust off photovoltaic panels
