What is a 10kW hybrid inverter?

The 10kW Gen 3 hybrid inverter comes with an increased backup power output capability of 10kW when Solar and Battery are used in tandem. Additionally, the Gen 3 has an increased max input current per string of 30A allowing for higher current panels to be utilised in your system designs and an increased MPPT range.

Why should you buy givenergy hybrid inverter?

BUY! GivEnergy design and manufacture their own inverters, batteries and state-of-the-art management system and monitoring platform which combine to offer an exceptional storage package. The third generation of the GivEnergy Hybrid inverter is a DC-coupled storage solution which allows you to seamlessly integrate battery storage into PV systems.

Do Giv Inverters come with SPD?

Installers must now offer an SPD to the homeowner for them to decide whether they would like one installed. Giv inverters do not come with an SPD inbuilt which means that installers will need to offer their own. Max. C /D power
