A high-voltage (288V/307V max) LiFePO4 battery system with modular rack design, scalable, designed for larger homes, small businesses, and solar energy storage.

Easy Expansion: As energy needs grow, additional battery modules can be added without replacing the entire system, making it a cost-effective solution for expanding energy storage capacity.

We have dedicated after-sales teams in Southeast Asia and Europe. Once the storage batteries arrive at your project site, you can follow our installation guide to complete the setup yourself.

The battery modules are equipped with an automatic fire extinguishing device to prevent fire hazards. The cabinet temperature control adopts the design of thermal insulation layer and air conditioner

Discover the top 5 30KWh battery systems in Europe for 2025. Compare price, features, and performance to find the best energy storage solution for your home.

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

AlphaESS is able to provide outdoor battery cabinet solutions that are stable and flexible for the requirements of all our customer's battery and energy storage demands.

Europe's shift to renewable energy makes outdoor storage cabinets indispensable. With strict standards and diverse needs, the market favors reliable, innovative solutions--an area where ...

Energy Storage Cabinets, designed in the UK and manufactured using the highest quality materials, featuring a thick nickel plated copper busbar system - perfect for both 30kWh and 15kWh solar rack ...

30kWh Modular Battery Cabinet for Central and Eastern Europe

BSLBATT DyniO is an all-in-one ESS battery storage system that combines a 30kW hybrid inverter, high voltage control box, and 60kWh / 70kWh / 80kWh / 90kWh Li-Ion battery modules for both AC ...
