---

JA Solar's 580-605W solar panel features a mechanical diagram, specifications, and key details such as dimensions (2465+2mm x 1134+2mm x 35mm), weight (31.1kg, 3%), cable cross-section size (4mm ...

Discover the JA Solar N-type 580W Bifacial Solar Panel JAM72D40-580/MB, a high-performance and efficient solar panel that captures sunlight from both sides, maximizing energy generation. ...

The 580W TOPCon Black Frame Solar Panel, measuring 2278 x 1134 x 35mm, offers exceptional performance. Dual-glass construction makes it ideal for flat roof and ground-mount photovoltaic ...

The MEGA 580 solar panel is engineered to deliver maximum solar output with minimal space, system complexity, and cost. Generating 580W of power at 24V, it's a reliable solution for residential, ...

In this section, we will provide an in-depth analysis and summary of the technical specifications and features of the Jinko 580 module, a highly efficient and advanced solar panel.

The 580Wp / NBJD580 solar panel is a 144 TOPCon half-cell bifacial double glass solar panel designed for large free-field photovoltaic systems, optimized for long-term reliability and performance.

The JA Solar JAM72D40-580/MB is a high-efficiency bifacial solar panel featuring monocrystalline N-type cells and half-cut cell technology. Designed for robustness and reliability, this panel offers ...

With a super strong frame design accounting for 10% increased strength and a system voltage of 1500V, this solar panel ensures stability, reliability, and efficiency for long-term energy ...

As the photovoltaic (PV) industry continues to evolve, advancements in 580W photovoltaic panel specifications have become critical to optimizing the utilization of renewable ...

# 580 Photovoltaic panel size specifications

The specifications and characteristics contained in this datasheet may deviate slightly from our actual products due to the product developments and uncertainty of measurement devices.
