The Australian Energy Market Operator's (AEMO's) latest Connections Scorecard shows a surge in new generation and storage capacity with 260 projects totalling 53 GW going through the...

The award of a 14-year LTESA by the Australian Energy Market Operator Services under the NSW Roadmap Tender Round 5 for Long Duration Storage underpins the project's role in ...

A white paper on advanced grid-scale inverters published by the Australian Energy Market Operator (AEMO) in 2021 highlighted the need to progress the development and deployment ...

Australia's clean energy transition has reached an important milestone. Five ARENA-funded large-scale battery storage system (BESS) projects, equipped with grid-forming (GFM) ...

Both projects strengthen the integration of renewables, increase grid flexibility, improve availability and efficiency of supply and contribute, in general, to a more self-sufficient, secure, ...

AEMO Onboarding and Connections Group Manager Margarida Pimentel said the pipeline of new generation and storage capacity exceeded 51 GW, which is a 37% year-on-year ...

Finnish energy giant Wärtsilä; has announced the latest addition to its massive network utility-scale battery energy storage system (BESS) projects in Australia: a record-breaking 1.5 GWh...

Australia has a massive pipeline of grid-scale battery energy storage projects. 16.5 GW of new battery projects could arrive in the NEM in the next 3 years.

Battery energy storage systems (BESS) equipped with grid-forming inverters have emerged as essential components for maintaining system stability in Australia's National Electricity ...

Australian energy storage grid-connected projects

By enabling large-scale, grid-forming storage projects like Eurimbula, SMA Australia and Elements Green are helping to shape a resilient, reliable, and renewable energy system--ready to ...
