An automatic corner protector inserting machine is used for automatic inserting of kraft or corrugated cardboard corner protectors for solar panels. The panel switching process is easy to operate.

Main functions-It can automatically wrap the corner paper onto modules and distinguish the sizes of the corner paper, including the double-glass module without C frame.

Corner protector wrapping machineRO-HJB02 Paper protector inserts automatically and then folds along the creases. Main Technical Specification Tact: 16-20s

Enables efficient automatic installation and precise folding of corner protectors, with stable adhesion throughout the process. Servo-driven feeding ensures synchronized infeed and outfeed. Touchscreen interface supports ...

An object of the utility model is to provide an automatic dress angle bead machine of photovoltaic module to solve the problem that proposes in the above-mentioned background art.

Automatically protect the corners of the component, then fold along the creases. Touch screen interface for switching component specifications, manual operation, alarm information, and other parameter settings.

The ECOPACK CORNERS is a fully automatic machine designed to position and fix angles on the frames of photovoltaic panels in order to help the overlapping of the panels at the time of packing.

Horad New Energy is a leading Chinese manufacturer and supplier of Auto Corner Protection Inserting products known for their outstanding quality. Our cutting-edge factory uses advanced technology to ensure that every ...

The ECO GRINDING machine is an automatic, inline solution designed specifically for smoothing and

Automatic corner protection machinery for photovoltaic panels

chamfering the corners of solar panel frames. This essential process not only eliminates sharp edges, ...

Featuring wide adoption and can be used for inserting paper, kraft paper and corrugated cardboard corner protectors for solar panels without frames; Equipped with a visual inspection system to monitor the quality of

...
