Benin's lush forests, covering roughly 25% of the country's land area, are vital for biodiversity and local communities. However, deforestation and illegal logging threaten these ecosystems. Enter solar ...

The government of Benin has announced the commencement of construction on the Forsun PV power plant, a 25 MW solar project that will increase the total capacity of the Illoulofin ...

The Forsun plant underscores Benin's commitment to sustainable energy, complementing its national energy strategy to reduce reliance on imports and prioritize green ...

The government of Benin has announced the start of construction on its 25 MW Forsun PV power plant. It said in a statement that the new plant at the Illoulofin Solar Power Station will ...

Benin has begun construction on the 25 MW Forsun PV Plant, a key project in the Illoulofin Solar Power Station's expansion to 75 MW. The \$25.8 million investment underscores the ...

The government of Benin has announced the start of construction on its 25 MW Forsun solar power plant which also opens for possibility of extension for solar pv storage in the future.

With financial and technical support from a variety of sources, Benin previously built several solar power plants and installed dozens of mini-grids; solar power currently contributes ...

The solar farm is under development by the Government of Benin, with funding from the European Union (EU), the French Development Agency (AFD) and the Beninese Electricity Company (SBEE).

Together, the FORSUN, TTC and DEFISOL plants will strengthen Benin's energy capacity, enough to supply electricity to thousands of homes, the Benin government said in a statement.

By adding 50 MW of solar generation capacity, the project will help address electricity shortages while
