With rising temperatures and erratic rainfall threatening its energy lifeline, Bhutan is quietly investing in solar power as a resilient alternative to secure its future.

As a starting point, the project will establish a private sector driven 30 MW solar energy through blended finance mechanisms and a series of policy reforms. This is a significant step ...

Punakha--After months of delays caused by incessant rain and prolonged monsoon, Phase II of Bhutan's first utility-scale solar power plant in Yongtru, Sephu Gewog, is finally online, ...

These levels make Bhutan suitable for off-grid PV, rooftop solar, and hybrid systems, especially in places where extending the grid is not practical. If you need to learn more solar power potential in ...

The project included the installation of Rooftop Solar PV at Centenary Farmer's Market (CFM) and Ground Mounted Solar Panels at Dechencholing in Thimphu. The first phase of the ...

According to project officials, this solar farm is designed to support hydropower during the lean season, reducing Bhutan's reliance on energy imports from India.

"Initially, the project was designed to use about 65 acres in Yongtru village but we were able to procure higher-wattage solar panels, significantly reducing both cost and area requirements," ...

In this paper, efforts have been made to assess the future energy potential from the rooftop solar photovoltaic (PV) systems in Thimphu City. For this study, we designed and simulated a ...

The Department of Energy, MoENR announces the commissioning of Phase I (17.38 MWp) of the Sephu Solar Project in Sephu Gewog, Wangdue Phodrang, marking the launch of the ...

Developed by the Bhutan Energy Research and Development Center (BERDC) with support from the

Bhutan curved solar panels

International Solar Alliance (ISA), the roadmap focuses on deploying large-scale ...
