This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February 2025 to procure 500 MW of battery energy storage system (BESS) capacity for critical ...

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for ...

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an ...

This bid aims to bolster the country's reliability of electricity supply by addressing critical power nodes, backed by an anticipated investment of \$500 million. The initiative demands that the ...

Argentina's Energy Secretariat, part of the Ministry of Economy, has initiated an auction to secure 500 MW of battery energy storage capacity in the Metropolitan Area of Buenos Aires (AMBA).

The international tender, first announced in February, aimed to secure 500 MW of energy storage capacity for critical points in the Buenos Aires Metropolitan Area (AMBA) grid.

Designed to reinforce the grid in the greater Buenos Aires area, the initiative has sparked significant interest--receiving more than double the targeted capacity. Fifteen companies submitted ...

Intended to strengthen the grid in the greater Buenos Aires region, the program has attracted a lot of attention; it has been subscribed to projects that are about twice the desired capacity.
