A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided by Chinese firms Hithium and Kehua.

With these developments, SUNOTEC and Solaris Holding expand their portfolio of solar and energy storage projects in Bulgaria, adding to existing operational sites in Pernik, Verinsko, and ...

While a key feature of solar and BESS projects can be their relative speed to deploy, they can (and often do) face challenges that delay commissioning. But with strict deadlines tied to the EU grant ...

Sungrow will supply its PowerTitan 2.0 BESS, along with its SG350HX-20 string inverter and MVS for a hybrid PV and storage project. This partnership marks Sungrow's first BESS deployment in Bulgaria.

Sunterra Re has entered into a strategic partnership with Sungrow to add the China-based company's BESS solutions to its largest three solar power plants in Bulgaria.

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, to provide ...

The project is located on the rooftop of an industrial facility in Sevlievo, Bulgaria, with an installed capacity of 230 kWp. Tongwei Solar N-type photovoltaic modules with a unit power of 450 Wp ...

Several large-scale solar photovoltaic (PV) projects and battery energy storage system (BESS) projects with a capacity exceeding 50 MW have been announced in Bulgaria since 2023, ...

SUNOTEC and Sungrow have signed a strategic agreement to deploy 2.4 gigawatt-hours (GWh) of battery energy storage systems (BESS) across multiple solar power projects in Europe, ...

This significant milestone marks the system as Bulgaria's largest BESS project to date, jointly developed by

Bulgarian solar Glass Shed BESS

Kehua and Solarpro, the largest energy EPC company in Eastern Europe and a leading technological ...
