Earn one Solar Renewable Energy Credit (SREC) for every 1,000 kWh your system produces. Provides a free solar installation for income-qualified D.C. residents. A true "no-cost" solar ...

Find all the potential solar tax credits, rebates, and other incentives in Washington, DC for more affordable solar panels.

The District has adopted several renewable energy policies aimed at incentivizing building owners to install solar energy systems. The most impactful of these policies creates a credit market for annual ...

The great municipality on the Potomac may not be leading the nation in energy incentives, but it's certainly holding its own. Here are a few of the available incentives.

You can get a tax credit that covers up to 30% of the cost of your system this year, then save thousands more over months and years with: (1) lower energy bills; (2) net metering; and (3) renewable energy ...

These Solar Renewable Energy Credits are generated by your system - one SREC for every 1,000 kilowatt-hours of electricity produced. Current DC SREC prices range from \$435 to \$455 ...

As of 2024, each D.C. SREC can sell for up to \$400, and the actual price tends to hover right around that level. (That makes them some of the most valuable SRECs in the country!) So a 5 ...

Ready to Make the Switch? On top of the state incentive programs above, our home solar plans, with or without energy storage, start at \$0 down.

Discover DCSEU's Solar for All program, providing affordable solar energy solutions to eligible residents at no-cost. Learn how you can benefit today.

Dc discount for photovoltaic energy storage cabinet in subways

Community solar projects generate and distribute solar energy to the electric grid. As a subscriber, you're able to purchase a share of this energy (typically at a discount) which shows up as credits on ...
