Designed with durability and environmental protection in mind, these enclosures are ideal for industries such as telecommunications, energy storage, power distribution, and outdoor monitoring systems.

The liquid cooling battery cabinet is a distributed energy storage system for industrial and commercial applications. It can store electricity converted from solar, wind and other renewable energy sources.

Built from galvanized or stainless steel materials, the cabinet achieves IP54 to IP65 ingress protection, effectively isolating internal power components from moisture, dust, and corrosion.

As a leading Chinese Supplier and Manufacturer, AZE specializes in designing and producing high-quality outdoor enclosures, telecom cabinets, and BESS (Battery Energy Storage Systems) solutions.

Perfect for industrial equipment, electrical cabinets, and outdoor installations, our enclosures offer customizable solutions for renewable energy, telecommunications, and more.

IP65 rated enclosures provide indoor and outdoor protection for waterproof applications. Tested to IP65 standards ensures enclosures and cases are safe for housing sensitive electronic assemblies in ...

CONSNANT IP65 Outdoor Integrated Power Supply Cabinets: Tailor-made for South American Grid Reliability Internal power equipment configuration: CNI330-15KVA industrial-grade UPS with built-in ...

The outdoor energy storage system supports the flexible expansion of PV capacity and simultaneous access to load, battery, grid, DG, and PV, highlighting its role tailored for small C& I energy storage ...

This outdoor cabinet for energy storage system (ESS) applications is engineered to house batteries, inverters, and controllers with superior protection and durability.
