What's it like driving an electric car between Dodoma and Morogoro?

Adam Msuya, a driver for UNDP Dodoma, shared his experience with the EVs: "Driving the electric vehicle between Dodoma and Morogoro has been smooth. The car is quiet and efficient, and knowing it's powered by solar energy makes me proud.

How do EVs work in Dodoma & Morogoro?

These EVs, charged by solar power, are now used by UNDP's Dodoma office for official trips within the city and for travel between Dodoma and Morogoro, a distance of approximately 270 kilometres.

What should the UAE government do about EV charging?

One key priority for the UAE government should be the removal of implicit or explicit taxes on electricity use for EV charging. The second key priority should be the harmonization of differentiated taxes for imported vehicles, particularly used vehicles.

Does mainstream adoption of EV equate to 100 % eV penetration?

It is important to note that promoting mainstream adoption of EV does not equate to 100 % EV penetration per se, if the goal is to achieve the decarbonization of road transport. Competing solutions, which include vehicle efficiency as well as increased use of biofuels and/or synthetic liquid fuels, can extend the use of ICE vehicle platforms.

The adoption of a consumer segment-focused EV policy roadmap is aligned with current governmental efforts to stimulate EV adoption in the country, such as the ongoing work on the ...
