Vitro has expanded its contract with First Solar to distribute glass front sheets used in advanced thin-film photovoltaic solar panels.

"We are pleased to expand our contract with Vitro, which gives us access to a new source of American-made glass for the front sheets in our solar panels and supports our efforts to ...

Production is expected to commence in the first quarter of 2026. First Solar is a leading American solar technology company and global provider of responsibly produced eco-efficient solar modules ...

Vitro's investment in the Meadville Plant is expected to provide First Solar with a vital domestic source of float glass, which is a significant component of the company's advanced thin film solar panels.

Vitro's plants are strategically located to meet First Solar's needs and already have the required raw materials for production. Production is expected to commence in the first quarter of 2026.

Vitro expands contract to supply First Solar with glass for thin-film PV panels, enhancing solar innovation and sustainability.

Vitro Architectural Glass has entered into an agreement to manufacture glass for First Solar's advanced thin-film photovoltaic solar panels.

The expanded contract with Vitro ensures access to a new source of American-made glass for the front sheets in First Solar's solar panels, aligning with efforts to enhance resilience in the ...
