Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, AZE manufactures custom NEMA 3R enclosures.

Outdoor cabinets are for use whenever maximum protection is a must. The anti-vandalism qualities provides protection against electromagnetic radiation and conditions of high heat.

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.

IP55 Outdoor Series Cabinets are cabinets that are resistant to all kinds of adverse conditions such as heat, water, dust and wind, ensuring that the electronic devices and other materials they contain operate within ...

It is designed for a variety of applications and can be tailored to fit your specific needs. This cost effective solution has a unique cube design that give flexibility to easily have various heights of cabinets.

They are manufactured using high-quality galvanized steel sheets, insulation wool, high-temperature resistant EPS or PU materials, featuring a double-layer thickened outer shell for a longer service life.

Varies specification upon customers" special requirements with 1 pc of the lighting system, smoke alarm, temperature sensor Flexible packing methods allow for convenient stocking and end-user delivery.

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust protection (IP55/IP65), it ...

The IP55-rated outdoor cabinet is a robust, weather-resistant enclosure designed to protect sensitive electrical, networking, or industrial equipment in harsh environments.
