-----

S5-GC (50-60)K three-phase series string inverter are suitable for the installation of three-phase input pv system of commercial and industrial PV plants. Adopt 5/6 MPPT design to provide a more flexible ...

With max. 15A DC input current per string, the SMT 50-60kW Series is compatible with different types of high-power modules, which ensures more solar power absorption making it one of the most ...

The 50 & 60kW (55 & 66kVA) medium power CPS three phase string inverters are designed for ground mount, rooftop and carport applications. The units are high performance, advanced and reliable ...

GoodWe SMT 50-60kW Series inverter is ideal for medium and large-scale commercial installations. Harvest solar energy and generate environmental-friendly power for increased return on investment ...

With max. 15A DC input current per string, the SMT 50-60kW Series is ...

Smart I-V curve diagnosis Remote firmware upgrade with simple operation.

Growatt MAX 60 KTL3 LV is a three phase solar inverter designed for residential and commercial use. As an inverter, its primary function is to convert the direct current (DC) electricity produced by solar ...

Optimize your commercial PV rooftop with our SMT 25-60kW Series compact and lightweight string inverter, offering up to 6 MPPTs and high reliability.

Features: Max. efficiency 99.0% Wide voltage range and low startup voltage 4 MPPT input, each rated current is 28.5A, compatible with high power module THDi<3%, low harmonic distortion against grid ...
