We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Discover photovoltaic containers with integrated solar panel systems and MPPT controllers for scalable off-grid energy storage. ISO 9001 certified, 20ft-40ft customizable solutions.

Explore our range of high-efficiency solar container solutions designed for businesses worldwide. Our containers combine cutting-edge technology with durability and ease of deployment.

Solar containers offer the advantage of high degree of prefabrication in the factory workshop. They can be tailored for the specific application. The factory quality assurance avoids risks in terms of missing ...

Would you like to generate clean electricity flexibly and efficiently and earn money at the same time? With Solarfold, you produce energy where it is needed and where it pays off.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

Unlike conventional solar installations that require extensive on-site construction and system integration, these containers are factory-assembled, tested, and delivered as complete units.

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in construction, events, ...

High-Temperature Resistant Photovoltaic Containers

We work with our customers to create your temperature resistant photovoltaic PV distribution boxes with easy access and egress of lines and cables without bends and tension.
