Our inverters are extremely rugged by design, and feature an advanced Internal Suppression Filter Network to suppress the significant transients usually associated with these applications.

Half-bridge evaluation kit populated with two MC33GD3160 single channel Silicon Carbide MOSFET gate drivers.

600 kW high performance dual three-phase inverter; optimized for Wolfspeed's Silicon Carbide (SiC); low inductance; conduction optimized XM3 Power Modules.

Meticulously designed to deliver unparalleled reliability, efficiency, and high performance, our cabinets cater to diverse industries such as microgrids, renewable energy, and energy storage. Experience the pinnacle of ...

SIERRA MODULE CABINET - MT600K-plus is a series of MT Plus. MT Plus is our new generation of 3 Phase input 3 phase modular UPS. It has been adopted with full digitized control, modular design and N+X Parallel ...

ecification Sheet EvoCharge Power Cabinets are used with EvoCharge Power Stations and distribute charging power to as many as 6 or 8 charging outputs (charge ports) simultaneously depending on the prod.

RTF300/600 Modular rectifier cabinet, 300KW and 600KW optional, can be combined with ATESS PCS to form a DC coupling solution, suitable for large industrial scenarios.

Our inverters for control cabinet installation have a power range from 0.33 to 215 HP and can be customized with optional plug-in modules. Variable cooling solutions ensure optimum heat dissipation.

With half the weight and volume of a standard 62mm module, the XM3 footprint maximizes power density while minimizing loop inductance for low-loss, high-frequency operation with simple power bussing.

High-performance 600kW inverter cabinet

600kW 3-Phase Reference Design with Six 1200V, 450A SiC Half-bridge Modules. The 600kW three-phase inverter demonstrates system-level power density and efficiency obtained by using six of ...
