Only for installing the battery cabinet in a new location: Follow the installation manual to install the battery cabinet in the new location. See Installation Procedure, page 18 for installation overview.

Verify that no current will flow when the battery is connected or disconnected by opening battery disconnects (if available) or adjusting the system to match battery voltage.

Set first battery in cabinet and attach the long lead (fast-on connector side marked positive) from the cabinet to the fast-on terminal on the positive terminal of the battery.

Refer to "Securing the Batteries Using the Battery Retention Strap" on page 21 for instructions on securing the batteries using the buckle strap provided with the battery cabinet.

Lithium-ion battery cabinet (s): Connect the Power Cables. Lithium-ion battery cabinet (s): Route the Signal Cables to the Switchgear, Rack BMS, and System BMS Ports.

The documentation available online is generally the latest version.

This manual describes how to install your battery cabinet. For more information about the operation and communications capabilities of your UPS system, refer to Installation Procedure for Line-Up Modular ...

Step 3: Measure from Top Line to Top of Battery Cabinet Bracket NOTE: All three brackets will be at different heights upon completion.
