Are solar panels illegal?

Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies.

Do you need a permit to install solar panels?

Yes, most solar panel installations require permits. Whether you're installing rooftop panels or a ground-mounted system, local building departments typically require permits to ensure safety, code compliance, and proper grid connection.

Can a Homeowners Association restrict solar panels?

That usually means banning a homeowners association from restricting solar panels in a way that significantly affects the cost of solar or the solar panels' performance. Often, the laws let HOAs make reasonable requests for aesthetic or safety purposes. Solar access laws are generally set at the state, county, or city level.

What are solar access laws?

Solar access laws can take different forms but include any law that protects your access to installing solar. That usually means banning a homeowners association from restricting solar panels in a way that significantly affects the cost of solar or the solar panels' performance.

Solar access laws establish your right to generate electricity at home. Here's what your state says about HOA restrictions on solar panels.
