Wide Application: This versatile BMS works with Li-ion, LiFePO4, and LTO batteries. Ideal for Solar Camper Van, Compact Electric Car, and Electric Cargo Tricycle and so on, it offers ...

JK BMS is an intelligent BMS with active balancing function. This series supports balancing current from 0.6A to 2A and maximum continuous current from 60A to 200A.

High-performance 48V 280Ah EVE LF280K LiFePO4 Battery Pack with Smart BMS, CANBus, RS485, and RS232 communication. Safe, efficient, and ideal for electric vehicles and energy storage systems.

Optimize your battery management system with the JKBMS Smart BMS featuring CAN thermal management, RS485 connectivity, and active balancing. Suitable for 4S-8S 12V-24V applications, it ...

The JBD smart BMS from OverkillSolar is our #1 recommended BMS for DIY battery systems. It's app has great functionality, customer service is great, and it has low-temperature cutoff ...

Main information about this BMS: This JK bms is especially used for 8S to 24S Smart fixed configuration .For most important that it can also be used for any other lithium technologies like LiFePo4, Li-ion, ...

??JK Active Balance?JK Smart active balance the voltage differences between the battery cells, raising the battery usage efficiency to 99%, providing the battery a longer life.

Our products and services include wholesaling cylindrical & prismatic LiFePO4 and Lithium Ion battery cells, producing lithium battery packs and providing battery solutions.

Small in size, easy to use, and packed with features, the BD6A24S12P Active Balancer BMS is ideal for a range of products, including solar power stations, walkers, shared cars, high-power storage, base ...
