The Tennessee Valley Authority (TVA) has officially announced a request for proposals (RFP) for a substantial utility-scale battery energy storage system (BESS) at the Kingston Energy Complex, ...

The Tennessee Valley Authority is making progress on its transformation of the aging Kingston Fossil Plant, a new facility that will include natural gas, solar and battery storage to...

The Tennessee Valley Authority is expected to retire its nine-unit, coal-fired Kingston Fossil Plant by 2027 and replace it with a natural gas-fired plant, solar and battery storage.

In the wake of an extensive multi-year public deliberation, the Tennessee Valley Authority (TVA) has reached a significant decision: the retirement of its Kingston Fossil Plant and the ...

Kingston Fossil Plant will become a state-of-the-art energy complex that includes natural gas, solar energy, and battery storage -- the first of its kind for TVA.

To replace that generation, TVA will build an energy complex that will house at least 1,500 megawatts of combined cycle and dual-fuel aero-derivative natural gas combustion turbines with 100 megawatts of ...
