The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust ...

Over 12,000 of our lifting devices are in use in more than 50 countries worldwide. Lifts can be constructed that are CE compliant or to other required standards.

Specially designed with a custom carrier that functions as a cargo ...

It takes less than 30 seconds to safely and easily lift solar panels and equipment to a two-story roof. At the end of the day simply tuck your lift into a regular work van, or even a car, where it is ready to set ...

Discover solar panel hoist systems designed for efficient PV handling. You streamline rooftop installs with compact lifts that reduce manual strain and speed staging.

This model is designed for light works and for lifting solar panels onto roofs and terraces. Driving group wheels enable a fast and easy placement in any installation.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

The Solarlift, also called a panel lift or PV panel lift, is an economical solution for the speedy and safe transport of photovoltaic and solar panels. Specially designed with a custom carrier that functions as ...

Learn how ergonomic solar panel lifting equipment can solve common handling challenges in production, inspection, and warehousing.

Handling solar panels is easy and efficient with UniMove solar panel lifters. Everyone can lift and tilt large solar panels, powered by vacuum technology. UniMove offers a solar panel lifter for every step ...

Lifting equipment for photovoltaic panels

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.
