LONGi LR4-72HPH 450w is a model that uses a number of technologies to bring durability and performance to the next level. This module takes full advantage of half-cut cell ...

The 450W power output and high efficiency (up to around 20.9%) make it ideal for systems with space constraints. Low light performance for energy generation, half-cut cell technology to reduce power ...

Long solar panels 450W series are business-ready, half-cut mono modules that deliver strong energy yield in a compact, single-glass format. They come positively power-sorted for dependable output, ...

The LONGi LR7-54HGBB-450M is a 450W bifacial solar module featuring 108 half-cut cells. Its advanced bifacial technology captures energy from both sides of the panel, increasing overall power ...

The LonGi 450W Solar Panel (HR4-72HPH, 430-460 Watt) offers high performance, durability, and long-term energy generation for ground power plants and distributed energy projects.

Description Includes Specifications FAQ Downloads Reviews The LONGi Hi-MO 7 LR7-54HGBB-450M is a high-performance 450W n-type bifacial double-glass solar module designed for residential and ...

The panel Longi 450W LR4-72HPH 450/MR is a monocrystalline module of 450W and 144 cells ideal for photovoltaic systems for self-consumption both isolated and grid.

Longi is a leading global manufacturer of high-efficiency monocrystalline solar cells and modules that has been focusing on MONO for 18 years. In fact, it is the largest supplier of monocrystalline silicon ...

LONGi launched its mono-PERC modules in 2016, featuring integrated PERC technology on monocrystalline silicon and low light degradation, and its cell efficiency has increased from 21% to ...

More Power OutputOptimized Design For Higher ReliabilityA Panel That Can Handle Hail, Wind and

Longi Photovoltaic 450W Panel

Snow25 Year Power WarrantyProduct DetailsA 35 mm frame made from anodized aluminum alloy and 3.2 mm layer of protective tempered glass make this module resistant to the foulest of weather. These panels pass a hailstone test where they take on 1? hail grains at the speed of 51 mph. The front side of the modules can resist a 5400 Pa load, and the back side 2400 Pa.
