Limited Product Warranty-Repair or Replacement within 12 years.

LONGi launched its mono-PERC modules in 2016, featuring integrated PERC technology on monocrystalline silicon and low light degradation, and its cell efficiency has increased from 21% to 24.06%.

Embrace the power of solar energy with LONGi, the global leader in monocrystalline solar panels. Discover their range of high-performing products.

The LONGi Hi-MO X10 is a premium product built on the revolutionary HPBC 2.0 cell technology. It leads in terms of power generation performance, reliability, and customer benefits, while also meeting the needs of ...

The company specializes in the production of high-efficiency monocrystalline solar panels and silicon wafers, offering innovative solutions for a sustainable energy future.

Backed by advanced technologies, LONGi solar panels feature excellent power ratings and top conversion efficiencies, and can be used across all market segments. LONGi's field-proven bifacial modules deliver ...

Cell Technology: It utilizes monocrystalline N-type PERC (Passivated Emitter and Rear Cell) technology, which enhances efficiency and performance while reducing light-induced degradation (LID).

With a vast production capacity, LONGi contributes to making solar energy more affordable and produces cost-effective solar panels that are accessible for both residential and commercial use.

Identification Brand LONGI Product Code LR5-72HTH-580W Design & Mechanical Specification Panel Type Bi-facial Panel Surface Standard Panel Weight 27.5 Kg Panel Length 2278.0 mm Panel Width ...

Longi monocrystalline photovoltaic panels

n-type

LONGI Solar focuses on manufacturing monocrystalline PV cells and panels. The company also offers building-integrated photovoltaic solutions (BIPVs) and alkaline water electrolyzers. The power output of ...
