Smartenergy, a Swiss multinational specialized in renewable energies, intends to build one of the largest photovoltaic plants in Spain between Toledo and Madrid.

Designed for mobility and fast deployment, our foldable solar power containers combine solar modules, storage, and inverters into a single transportable unit. Ideal for emergency scenarios, rural ...

Solar, wind, and hydro power made up the bulk of the generation, with wind generating 256 gigawatt hours (GWh), solar 151 GWh, and hydro 129 GWh. Solar thermal and other renewables ...

Edisun Power Europe is building three large solar parks near Madrid, boosting solar energy capacity by nearly one gigawatt to meet high local demand.

The government has concluded that solar power did not cause the outage, but its prevalence in the energy mix is important context for what went wrong.

Over the course of 2024, installed solar photovoltaic power capacity experienced the greatest increase within the peninsular electricity system, adding almost 6,000 MW to the power generation fleet.

The 150 MW Andasol solar power station is a commercial parabolic trough solar thermal power plant, located in Spain. The Andasol plant uses tanks of molten salt to store solar energy so that it can ...

Learn the cause of the massive Spain power outage in April 2025, dive into the timeline and affected regions, and find out how energy storage can prevent blackouts going forward.

IFEMA MADRID has begun construction on a new solar energy plant at its Recinto Ferial, set to become one of the largest urban self-consumption plants without surpluses. The facility ...

Welcome to Madrid's energy landscape, where solar power and energy storage solutions are rewriting

Madrid solar island power system

Europe's renewable playbook. With Spain aiming for 22.5GW of energy storage by ...
