Montenegro's state-owned power utility, EPCG, has canceled its EUR58 million tender for a 50 MW/200 MWh battery energy storage system (BESS) due to the absence of bids.

Power utility Elektroprivreda Crne Gore has launched its second battery energy storage system procurement tender. The required capacity is drastically lower than in the first call.

Each battery energy storage systems (BESS) will have a power output of 30 MW and a storage capacity of 120 MWh, designed for operation at an output voltage of 35 kV. The batteries will ...

Montenegro's state-owned power utility Elektroprivreda Crne Gore (EPCG) has invited bids for the design, supply, installation and commissioning of two battery energy storage system ...

Montenegro's state-owned power utility, EPCG, has initiated the preparation of a feasibility study and project design for the procurement of battery energy storage systems (BESS) ...

Each facility will have a power capacity of 30 MW and energy storage capacity of 120 MWh. The BESS units are expected to support grid stability, improve power system efficiency, and ...

EPCG, Montenegro's state utility, aims to procure two grid-scale battery storage systems (BESS) totaling 240 MWh in a EUR48 million (\$55.9 million) tender.

EPCG, a utility and DNO in the Southeast European country of Montenegro, is looking to add 300MWh of BESS to its grid.

EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand.
