We proudly represent NEP and their high efficiency solar microinverters for use with 60 and 72 cell solar modules

Northern Electric Power Technology Inc. (NEP) is a U.S.-founded company that focuses on the manufacturing of module-level power electronics (MLPE) for solar installations.

Statement of USA Silicon Valley headquarters, leading microinverters and rapid shutdown solutions installed in 35 countries for over 10 years.

A global shift in energy needs, rapid market changes, and evolving homeowner expectations frame the conversation in this episode, where NEP's CTO shares firsthand lessons from developing...

The mission of the company is to develop cutting-edge clean energy technologies and provide state-of-the-art solar inverter products to its customers. The core competency of NEP lies in its innovative ...

NEP is a solid brand, offers a competitive price and the best quality. Our international technology and functional design guarantees the highest satisfaction. Our mission is to develop cutting-edge clean ...

Our mission is to develop cutting-edge clean energy technology and provide next-generation solar inverters. Statement of USA Silicon Valley headquarters, leading microinverters and rapid shutdown ...

NEP Solar, founded in the U.S., develops cutting-edge technology and advanced solar microinverters for reliable and efficient energy solutions.
