Read about the transformative trends underscoring how microgrids are driving the New Energy Landscape in 2025.

Urban energy planning is entering a phase where distributed assets must be intentionally integrated into core infrastructure. The question is no longer whether cities will need microgrids, but ...

Urban microgrid expansion acts as a catalyst for sustainable urban development in a positive scenario. Imagine cities designed with microgrids at their core, promoting energy efficiency, ...

According to this reference for operator new: Global dynamic storage operator functions are special in the standard library: All three versions of operator new are declared in ...

The new operator uses the internal `[[Construct]]` method, and it basically does the following: Initializes a new native object Sets the internal `[[Prototype]]` of this object, pointing to the ...

A new expression is the whole phrase that begins with new. So what do you call just the "new" part of it? If it's wrong to call that the new operator, then we should not call ...

Note that if you declared `var a = new { };` and `var o = new object();`, then there is one difference, former is assignable only to another similar anonymous object, while latter ...

Unlike traditional grids, smart microgrids present a new framework to meet fluctuating energy demands, integrating renewables and expanding urban spaces' boundaries.

Discover how urban microgrids are transforming city power systems, making them more reliable, cleaner, and resilient for the future of urban living.

This study shows how integrating technical and socioeconomic dimensions in the design of microgrids can

New Urban Microgrid

enhance the resilience and equity of energy systems and promote well-being.

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What ...

Discover the transformative potential of microgrids in shaping the sustainable cities of the future. Explore how these localized energy systems offer resilient, adaptable, and eco-friendly solutions to the ...

Urban areas are growing fast, and we need new energy solutions. Microgrids are changing how we make, share, and use energy. They are key for cities to use clean energy. These ...

83 new() describes a constructor signature in typescript. What that means is that it describes the shape of the constructor. For instance take {new(): T; }. You are right it is a type. It is the type ...

In the specific case of throw, throw new() is a shorthand for throw new Exception(). The feature was introduced in c# 9 and you can find the documentation as Target-typed new ...
