Features Flexible All-in-one design and highly integrated Modular design with different optional parts

The CX-CI001 lithium battery energy storage cabinet can be customized for on-grid/off-grid operation mode, provides UPS functions, and can be flexibly expanded.

The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, industrial, and renewable ...

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor battery storage cabinet ...

It provide a secure thermally managed environment for backup battery systems for telecommunications and cable applications. With durable sandwich panel construction, this air-con.

Our innovative modular design caters to diverse application needs, offering eco-friendly, high-yield solutions. Backup power | Supply power to the load when the power grid is out of power, or use as backup power in off ...

Outdoor Lithium ion Battery Enclosure mainly provides a stable working temperature and dust-free environment for lithium battery, they are integrated with thermal insulation and equipped with air conditioner of different ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage,

Outdoor battery cabinet and integrated machine

intelligent power management, and weatherproof protection for solar and telecom applications.

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety system all
