This standard specifies the product types, technical requirements and test ...

The standard defines the requirements for an automatic AC disconnect interface - it eliminates the need for a lockable, externally accessible AC disconnect. When will PV be competitive? Why is there such ...

NB/T 32004 specifies the product types, technical requirements and test methods of inverters used in photovoltaic grid-connected systems.

This standard specifies the product types, technical requirements, and test methods of inverters used in photovoltaic (Pv) grid-tied systems. This standard is applicable to photovoltaic grid-connected ...

Step 1: Add NB/T 32004-2018 to Cart -> Step 2: Go to Cart -> Step 3: Go to Pay -> Step 4: Get NB/T 32004-2018 via email in 1~5 business day

This standard specifies the product types, technical requirements and test methods for photovoltaic grid-connected inverters used in photovoltaic (PV) power generation systems.

This standard specifies the product types, technical requirements and test methods of photovoltaic grid-connected inverters used in photovoltaic (PV) power generation systems.

Demonstrate market readiness with UL Solutions" inverter and converter certification and evaluation services for compliance with a wide range of local, national and international standards.

NB/T 32004 is an important industry standard in photovoltaic industry, which is one of the standards that grid-connected inverters must meet in domestic market, as well as the threshold stone to enter the ...
