-----

The wind-solar-diesel hybrid power supply system of the communication base station is composed of a wind turbine, a solar cell module, an integrated controller for hybrid energy ...

Russian communication base station wind and solar The invention relates to a communication base station stand-by power supply system based on an activation-type cell and a wind-solar ...

Communication base station stand-by power supply system ... The invention relates to a communication base station stand-by power supply system based on an activation-type cell and a wind-solar complementary ...

The wind-solar-diesel hybrid power supply system& 32;of the communication base station is composed of a wind turbine,& 32;a solar cell module,& 32;an integrated controller for hybrid energy management for ...

Do wind and solar resources have a complementarity metric system? To this end, we propose a novel variation-based complementarity metrics system based on the description of series" fluctuation characteristics from ...

technical field [0001] The invention relates to the technical field of new energy communication, in particular to a communication base station based on wind and solar complementarity.

The Kendall CC, Spearman CC, and fluctuation coefficient are combined to construct a comprehensive measure of the complementarity between wind speed and radiation, which provides a reliable tool for quantitatively ...
