This position will offer you the opportunity to work in a project team environment in the design, modification, and/or upgrade of new and existing power plant electrical systems

The Senior Engineer I, Solar PV Design, will support the Engineering department in the design of utility-scale photovoltaic (PV) power plants in their early stages of development.

I am currently pursuing a degree in Electrical Engineering at Iowa State University, with a focus on power and control systems. In the summer of 2023, I interned with Cedar Falls Utilities, where I had the opportunity to ...
