They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other components.

Battery Energy Storage Systems (BESS) provide a cost-effective, scalable solution to enhance energy security, reduce costs, and support environmental goals. This article explores the energy challenges airports face and ...
