The first zero-energy building in Beijing was unveiled at Shoucheng Prospect Park, a project designed by Gensler and co-developed by Shougang Fund and Royal Eagle Group (RGE).

A total of 16,483 photovoltaic panels have been installed in this project, which not only obtains and uses clean and green energy for the company, but also saves more than RMB 600,000 ...

Shougang Group is a prominent Chinese enterprise engaged in steel manufacturing, mining, and real estate development.

Upon reaching the rooftop, the photovoltaic panels on the roof embrace the sunlight freely. The photovoltaic power generation not only meets self-use requirements, but the surplus electricity ...

Open Shougang Qianqiang Full Domain adopts BIPV and BAPV combined mode to develop distributed photovoltaic power generation project, with a planned installed capacity of 30MW.

Recently, the Shougang Mining Corporation ("Mining Corporation") put its 100 MW Photovoltaic Power Generation Project online. As a clean energy demonstration project for mine ...

Under the sunlight, rows of photovoltaic panels at multiple Shougang sites glisten brilliantly, steadily harnessing the bountiful "photovoltaic dividends" bestowed by nature.

A PV array can be composed of as few as two PV panels to hundreds of PV panels.. A standard panel used in a rooftop residential array will have 60 cells linked together.

The strategic cooperation between the two parties is an important milestone. DAS Solar will take goal-oriented strategy and seize industry opportunities, and make continuous innovation, ...
