As global demand for grid stability grows, compressed air energy storage (CAES) projects like Sofia are reshaping renewable energy markets. This article explores bidding strategies, market trends, and ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts.

As the world transitions to sustainable energy systems, the Sofia Energy Storage Battery Factory continues to deliver reliable, scalable solutions for commercial and utility-scale applications.

With the establishment of a large number of clean energy power stations nationwide, there is an urgent need to establish long-duration energy storage stations to absorb the excess electricity ...

“In fact, we are already seeing the transition to energy storage in Bulgaria, mainly through the development of battery storage facilities behind-the-meter,” Alexander Rangelov, CEO of the ...

Shell partners with SUNOTEC on a cross-border battery storage project in Bulgaria, advancing regional energy transition.

Sofia 2025 Energy Storage Project Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar infrastructure ...

A new high-tech factory for the production of battery energy storage systems of International Power Supply (IPS) was opened on Friday in the Hemus Industrial Park in Sofia, the ...

On June 2, it was reported that International Power Supply (IPS) is set to begin operations at its new battery energy storage systems (BESS) manufacturing facility near Sofia, Bulgaria.

Sofia exports to large-scale energy storage

This article will provide an in-depth analysis of the entire process of building an energy storage power station, covering 6 major stages and over 20 key steps, along with 6 core points to help ...
