HiTHIUM's first 6.25MWh Energy Storage Solution is tailored for the North American market and the 4-hour long-duration energy storage application scenarios.

HJ-G0-6250L 6.25MWh Energy Storage Container System, with the advantages of large capacity, high security and long service life, is suitable for a variety of application scenarios, providing a reliable guarantee for energy ...

Liquid-cooled energy storage system based on HiTHIUM prismatic LFP ESS Cells 587 Ah with high cyclic lifetime. Improved safety characteristics and specially optimised for the highest requirements on safety, ...

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery enclosures can be pole ...

Utilizing long-life, zero-degradation battery cells with a density of 430Wh/L, this energy storage solution delivers high performance in a compact 20-foot container.

HJ-G0-6250L 6.25MWh Energy Storage Container System, with the advantages of large capacity, high security and long service life, is suitable for a variety of application scenarios, providing a reliable guarantee for energy ...

Ideal for renewable energy storage, it efficiently stores solar and wind power for later use, balancing grid demand and reducing fossil fuel dependency. The system is perfect for off-grid sites, providing uninterrupted power for ...

In the global energy storage shipment rankings for the first half of 2025, our group secured second place in both energy storage battery shipments and power energy storage shipments.

Solar communication battery cabinet 6 25MWh

6.25MWh capacity with 20% more energy per footprint. Improves efficiency and unlocks more usable energy.
