"Ben" is a demonstrator brought to life by three Swedish companies, Epishine, Ligna & Ynvisible. Ben is a sensor device that harvests energy from indoor light and stores it in a supercapacitor called S-Power.

Explore the top 7 supercapacitor manufacturers that are leading the way in energy storage innovation. Discover industry leaders, cutting-edge technologies, and their global impact.

Supercapacitors or ultracapacitors offer unique advantages like ultrafast charging, reliable operation spanning millions of duty cycles alongside wide operating temperatures and collaborative integration ...

Recent Developments April 2023: CAP-XX Limited, a leading manufacturer of ultra-thin prismatic, cylindrical, and Lithium-Ion supercapacitors, expanded its market reach by offering its ...

In this segment, we explore 10 new supercapacitor companies. Some of these firms manufacture graphene-based supercapacitors with increased conductivity and thermal performance. A few others ...

We have tested all the leading suppliers on the market and are convinced that Skeleton Technologies has by far the best offer. The lowest internal resistance (ESR) and highest efficiency levels of ...

The company specializes in the design and manufacturing of high-performance supercapacitors and energy storage solutions, catering to various industries including automotive, ...

Get access to the business profiles of top 26 Supercapacitors companies, providing in-depth details on their company overview, key products and services, financials, recent developments and strategic ...

In September 2022, Ligna Energy released its first sustainable supercapacitor "S-Power 1" and has since been collaborating with clients to create greener IoT-devices.
