From creative repurposing projects to advanced recycling techniques, there are numerous options for handling old solar panels in environmentally conscious ways.

Take Them on Vacation
Upcycle Into Furniture
Use Them For Insulation
Create A Greenhouse
Build A Fence
Chicken Coops
Dog Houses
Use Them as Shade
If you love creating something new from something old, upcycling your old solar panels into furniture is a great idea. You can easily turn them into a centre table that can act as a statement piece, perfect for striking up conversations. Due to their aluminum bottom, they're pretty easy to weld, meaning it's not a tough task to attach some legs and...
