Which container is best for long-term storage?

Its translucent design definitely indicates that it isn't the best choice for long-term storage, but for mobility. Opaque containers are best for long-term storage as it decreases the chance of sun-induced bacteria growth. Is it for you?

Which water storage container should I buy?

If you need a cheap water storage container for prepping, Reliance's Aqua-Tainer is the most popular option. Despite being so affordable, it has many nice features, with a hideaway spigot and the air vent screws on so it won't fall off while in storage. Note that the Aqua-Tainer is only stackable when empty.

Which opaque container is best for long-term storage?

Opaque containers are best for long-term storage as it decreases the chance of sun-induced bacteria growth. Is it for you? If you're a first responder or have the need to transport a large amount of water to a disaster site quickly, then the Norwesco/RomoTech reservoir is perfect.

Can you store bottled water?

While you can store bottled water, eventually, you'll want to invest in some water storage containers. Good emergency water storage containers will allow you to store larger amounts of water in less space, prevent leaking, and algae growth, and have features that make it easier to use your water during a disaster.
